

K252 MAGNUM

Sand & Gravel Rotary Cutter Assembly

K252 Magnum rotary cutter assembly with WARTHOG sand & gravel basket

- Sealed planetary gearbox rated at 250,000 in-lb of torque.
- 5-1/2" driveshaft with a Nickel-Chrome-Boron wear sleeve at marine bearing location.
- WARTHOG sand & gravel basket rotates and digs in either direction.
- Assembly weighs approximately 4,100 pounds.
- Requires hydraulic supply of 40 gpm @ 2,500 psi and water supply of 20 gpm @ 25 psi.
- Rugged DAISYDRIVE coupling to transmit torque and resist axial force.
