

Super-MOAB Dredge Block

15 Ton rating

16" OD sheave

1/2" to 7/8" wire rope

Designed for use in the harsh and demanding environment of dredge positioning cables.

Can be used above or below water.

16" OD sheave with hardened cable groove for long life. 4" shaft with a recessed grease zerk in each end.

Replaceable cable guides prevent slack cable wedging and protect the block body from cable wear.

Top swivel is lubricated and field repairable.

Modular design allows for fast assembly from stock components and facilitates field repair.

Approximate weight per block is 165 pounds.
