

MUZZLELOADERS

TWINKLE CO

The rugged, lightweight, powerful MUZZLELOADERS attach directly to the end of the suction pipe. What was a smooth-mouthed, plain-suction pussycat of a dredge is now tearing up a Wisconsin pit with an 8-inch MUZZLE-LOADER at a rate the owner claims to be three times as much as the plain suction! Now there is plenty of sand and gravel—no oversize-ready to pump all the time.
